The improvised city hospital on Grant avenue is considerable better than no place for the accommedation of the poor unfortunates who become charges upon the city. Several such are now being cared for and made comfortable by Dr. H. J. Powers, city physician, W. S. Lewis, superintendent and sanitary inspector, and Gus Engel, a tr ined nurse

The question of a public or government building will be agitated continuously from this time forward. This city is entitled under the federal law to such a building, and can get it if the proper efforts are put forth by the citizens. Ogden does not at present need a half-million structure for the use of the United States court and postoffice, but we are entitled to the government's consideration.

Sunday night the Southern Pacific company sent out a train composed of eleven cars and coaches, and another train was sent out yesterday morning. It was thought that by the time these trains reached Truckee the road would be open west of there. The first train was loaded with mail and baggage. The snow plow is being imprisone to between two collapsed show sheds on the west-side of the summit, there really is no telling when the blockade will be raised. All is pure guess work.

The deep snow has put a complete stop to the hauling of stone from the quarries on the east bench so that work on the Methodist university and the Reed hotel is at a standstill.

The free lunch counters are well patronized nowadays. The man who can put up a dime for a glass of beer can have a square meal thrown in, so there are a great many rustlers for dimes.

Carpenters are at work preparing the heavy timbers for the first floor of the new Read hotel, while stone-cutters are fash ioning into proper shape the red sandstone for the first story.

Our 4-story model building not alone contains more stock found under any one roof n the booming west, but also as a Retail Structure it denates a feature to Salt Lake City, while as a Wholesale House, THE ATTRACTION OF UTAH, one which any deserving representative of this Territory can safely boast of and point out with pride.

Gas and Steam Fitters,

This week we'll endeavor to explain sound facts of the modern epidemic and dreadful disease,

"LA GRIPPE," OR "INFLUENZA."

La Grippe, from the French, and Influenza, from Italian, when translated, mean Epidemic Catarrh. Medical science recognizes Catarrh not as a contagious, but a contracting disease, a mere development of a severe cold, hence La Grippe is preventible by avoiding your free circulating blood to any attack of cold. Therefore, take our advice and look out.
